

iOS Developer, Software Engineering

Conyers, GA- REF #2350

OUR TEAM

Acuity Brands is the North American market leader and one of the world's leading providers of innovative lighting systems. Our LED lights are computing, sensing, network connected platforms, and everywhere there are people, there are lights. We are perfectly positioned to enable the world of IoT, and we have plenty of awesome projects to work on! We are driving the industry's transformation to smart lighting; redefining how people live, work and play.

ABOUT THE ROLE

We're seeking talented and enthusiastic iOS Software Engineers who will be responsible for writing maintainable and scalable code for enterprise iOS applications for IoT solutions.

WHAT YOU WILL DO

- Responsible for writing maintainable, reusable, abstracted and scalable code for iOS applications
- Building iOS classes, services, and SDKs that will be used by other apps and software engineers
- Works individually or within a team on all aspects of software development including design, construction, documentation and debugging.
- Participates in the architecture of applications including database design, process flow, and appropriate technology use.
- Develops and grows technical knowledge via ongoing training and education.

ABOUT YOU

- You are passionate and optimistic.
- You are Innovative. You challenge assumptions.
- You encourage those around you to create their best work.
- You work for the best interest of the group at all times.
- You have unwavering personal integrity and work ethic.
- You are proactive.
- You graciously give and receive feedback
- You buy into the scrum methodology, and demand a project oriented, collaborative, and very positive environment.

WHAT'S IN IT FOR YOU

- The chance to work on meaningful projects aspiring to improving people's lives
- Great equipment including 4k monitors MacBooks or Surface Books / Surface Pros
- 4-Day work week (4-10, also 5-8 available, if preferred – we are flexible)
- Casual dress code (we are talking shorts!)
- Creative and collaborative environment
- Company paid sports leagues and wellness program
- On-site game room (ping-pong and Xbox)
- Free coffee and tea
- Commuter shuttle bus (limited areas)

And now the ordinary benefits:

- Health, Dental, Vision, Life, AD&D, 401K, HSA Accounts, Stock Purchase Plans
- and more!

REQUIRED SKILLS

- Bachelor's degree in Computer Science (CS), MIS or equivalent.
- 2+ years of experience as an iOS developer
- Objective C, Swift, C++, C#, or other object oriented programming languages
- Understanding and experience working with REST APIs
- XCode, SQL Language, HTML5, CSS3, JavaScript, jQuery, MVC, MVVM
- Team Foundation Server (TFS) or Git source control
- Understanding of Agile/Scrum project management
- Strong problem solving, teamwork and verbal/written communication skills

NICE TO HAVE

- Working knowledge of Xamarin, Java and Android is a plus
- Azure or AWS cloud computing experience

WHY IS ACUITY BRANDS A GREAT PLACE FOR SOFTWARE DEVELOPMENT?

- Our software team is a strategic part of the direction of our company
- Our company is a very profitable market leader and provides financial stability
- You will work with highly talented, fun and supportive teams
- We believe in a healthy work/life balance
- We produce quality software that you can be proud of

Contact us today and find out why we are one of Atlanta's Top Places to Work!
