

## Mobile Developer, Software Engineering

Conyers, GA- REF# NONE ACTIVE

### OUR TEAM

Acuity Brands is the North American market leader and one of the world's leading providers of innovative lighting systems. Our LED lights are computing, sensing, network connected platforms, and everywhere there are people, there are lights. We are perfectly positioned to enable the world of IoT, and we have plenty of awesome projects to work on! We are driving the industry's transformation to smart lighting; redefining how people live, work and play.

### ABOUT THE ROLE

We're seeking talented and enthusiastic Software Engineers with experience developing Mobile Applications. This person should understand the user requirements and translate these requirements that will meet the goals of the company. The Engineer will actively participate in systems architecture to create new, innovative solutions based on leading edge technologies.

### WHAT YOU WILL DO

- Participate in all planning, designing, architecture and construction phases of projects.
- Understand the user requirements and translate these requirements to innovative, mobile software solutions that will meet the goals of the company.
- Create mobile applications based on leading edge technologies.
- Utilize Agile/Scrum methodologies for software development.

### ABOUT YOU

- You are passionate and optimistic.
- You are Innovative. You challenge assumptions.
- You encourage those around you to create their best work.
- You work for the best interest of the group at all times.
- You have unwavering personal integrity and work ethic.
- You are proactive.
- You graciously give and receive feedback
- You buy into the scrum methodology, and demand a project oriented, collaborative, and very positive environment.

### WHAT'S IN IT FOR YOU

- The chance to work on meaningful projects aspiring to improving people's lives
- Great equipment including 4k monitors MacBooks or Surface Books / Surface Pros
- 4-Day work week (4-10, also 5-8 available, if preferred – we are flexible)
- Casual dress code (we are talking shorts!)
- Creative and collaborative environment
- Company paid sports leagues and wellness program
- On-site game room (ping-pong and Xbox)
- Free coffee and tea
- Commuter shuttle bus (limited areas)
-

**And now the ordinary benefits:**

- Health, Dental, Vision, Life, AD&D, 401K, HSA Accounts, Stock Purchase Plans
- and more!

**REQUIRED SKILLS**

- .Net Framework, including ASP.NET, C# and related technologies
- Experience in client side web technologies using HTML, CSS and Javascript
- Mobile development experience using Java, Objective C, Swift or hybrid mobile development environment like Cordova or Xamarin.
- SQL and database concepts, as well as proficiency in SQL development
- Ability to work as part of a team.

**NICE TO HAVE**

- Xamarin – native or Forms
- iOS or Android native development experience
- Azure cloud

**WHY IS ACUITY BRANDS A GREAT PLACE FOR SOFTWARE DEVELOPMENT?**

- Our software team is a strategic part of the direction of our company
- Our company is a very profitable market leader and provides financial stability
- You will work with highly talented, fun and supportive teams
- We believe in a healthy work/life balance
- We produce quality software that you can be proud of
